## LAKE & FISHING

Nelson Lake was created by the damming of the Totogatic River and covers an area of approximately 3,166 acres with a maximum depth of 38 feet. Here you will find the finest in fishing for walleye, bass, northern pike, crappies, bluegills and perch.

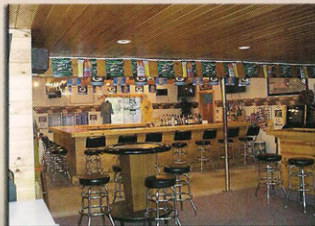

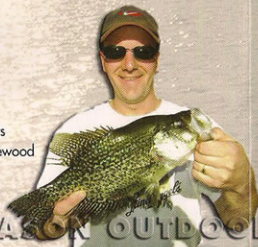

Below the dam is the Totogatic Flowage, covering approximately an additional 1,600 acres containing wild rice beds and plenty of vegetation, thereby creating a haven for fish, ducks and game.

Our resort is located in a sheltered cove with beautiful surroundings visited by deer and other wildlife.
